Source: Land and Property Information (LPI 2013).

**(e) Project Outline:**

The application seeks development consent for the construction and operation of an underground mine and associated infrastructure, including but not limited to a box cut, decline, ROM Pad, Waste Rock Emplacement, access road, workshop, offices, hardstand areas and related infrastructure. Approval is also sought for transportation of ore material to the Applicant's Tritton Copper Mine via an existing private haul road and Booroomugga and Yarrandale Roads using road trains.

**(f) Assessment of Environmental Impact:**

The assessment of environmental impacts of this project includes the matters referred to in the Director-General's Requirements provided to the Applicant on 25 September 2014 under Section 78A of the *Environmental Planning and Assessment Act 1979*.

**(g) Declaration:**

I, Mitchell Anthony Bland, hereby declare that I have overseen the preparation of the contents of this assessment and to the best of my knowledge:

- it has addressed the Director-General's Requirements as provided by the Department on 25 September 2014;
- the assessment contains all available information that is relevant to the environmental assessment of the project; and
- the information contained in this document is neither false nor misleading.
